**TAC** - Technical Advisory Committee
Target Oriented Policing (TOP) - Funds set aside for the specific directed law enforcement designed to immediately and administratively direct law enforcement efforts to specific needs.

Tax Increment - As the redevelopment plan is implemented, the improvements will result in an increase in property values within the project area. However, these increases in value will not result in increased taxes to individual property owners, unless there is a change in ownership or new construction (in other words, Proposition 13 still applies). The increases in value due to the changes in ownership and new construction will increase the tax revenues generated by the property. This increase in tax revenue is known as “tax increment”. For example, if property was assessed at $100,000 this year the taxes paid by the property owner at the standard tax rate of one percent would be $1,000 pursuant to Proposition 13. If, as a result of new construction on the property, the property increases in assessed valuation to $500,000, the taxes paid by the property owner at the same standard rate would be $5,000. The $4,000 increase is called “tax increment” and it is these funds which can become the revenue of the agency.

Taxes - Compulsory charges levied by a government to finance services provided for the common benefit.

Tax Rate - The amount of real property tax levied for each $1,000 assessed valuation. This rate is limited in California by Article XIII of the State Constitution to 1% of assessed valuation plus voter approved overrides for indebtedness.

Triple Flip - The "triple flip", set to go into effect on July 1, 2004, suspends one-quarter of the Bradley-Burns sales and use tax, replaces the lost revenues on a dollar-for-dollar basis with funds set aside from the countywide property tax revenues (primarily ERAF), and increases the State’s sales and use tax by one-quarter percent with the State increase dedicated to repayment of the bond measure.

The State Board of Equalization will distribute the full payments of sales and use tax on the second calendar quarter of 2004 in July and August with the final second quarter reconciliation amount paid in September.

Starting with September, monthly distributions of third calendar year quarter 2004 sales tax revenues will start at the lower amount.

In September, the Department of Finance will provide county auditors with the total amount of funds to set aside from the countywide Education Revenue Augmentation Fund (ERAF) property taxes to compensate the county and every city within the county for the reduced sales tax amounts for the current June – July fiscal year.

This amount will be based on prior year sales and use tax revenues. County auditors will make payments from the property tax set asides for the reduced sales tax revenues in January and May.

At the end of the fiscal period, the Department of Finance will provide the county auditors with the actual amount of reduced sales tax revenues for the county and each city in the county after the end of the fiscal year. Any adjustments as a result of the difference between the amounts paid each jurisdiction and the actual amounts will be settled in the next fiscal year.

The significance for cities is that there will be a cash flow delay as one-quarter of the sales and use tax revenues that are received monthly will not be paid in January and May and in some
instances may be delayed into January of the following year.

Since the sales tax compensation adjustment estimates are based on prior year sales calculated in August of the current year, the likelihood of differences is high.

**User Fees/Charges** - A fee or charge for receipt of a service by the user who benefits from using the service.

**USP - Urban Structure Program** - A computerized fiscal model that calculates the development fees for proposed projects based on the estimated costs and revenues the project will create to the City. The intent of the Urban Structure Program is to implement Objective 15.3 of the City of Lancaster General Plan by ensuring that new development pays for the costs of providing services and infrastructure needed to serve that development. This program has won the GFOA Award of Excellence award in 1996, as well as the Helen Putnam Award.
