

Introducing **NIXLE** – City Alerts Delivered Directly to Your Smart Phone

More powerful and flexible notifications replace former emergency alert system

Want to be aware of nearby emergencies, accidents, or traffic information? The City's new Nixle system can focus in on your specific neighborhood to alert you. The emergency communications tool can also advise you of potential flooding and fire dangers, as well as hazmat situations and AMBER Alerts.

The system is so versatile, you may choose to have emergency alerts and advisories sent to your cell phone, while routing community updates to your email.

Signing up is easy. Simply text LANCASTERCA to 888-777 to opt in to emergency alerts. For even more flexibility, sign up online at www.local.nixle.com/register.

For complete information regarding Nixle, visit the City's website www.cityoflancasterca.org/nixle or www.nixle.com.
